🎓 Education

Shanghai JiaoTong University(SJTU)

B.S in Software Engineering，Major	Sep.2014 - Present
B.S in Law，Minor	May.2016 - Present

👥 Experience

Basics Lab Based on the android development of Unity   May.2016 - Present

- This is a project provided by the school PRP program
- Develop a kind of game app and optimize the performance
- Make integration of a open-source android test framework

Autor a automatic car app   Jun.2016 - Sep.2016

- Including the function of map、order、news、statistics and music and so on
- Contains about 12k lines of codes and has experienced complete automatic test
- You can view this project on my github

Sound Lock project in microsoft hackathon   Nov.2015 - Dec.2015

parnters: WangKai ,WeiTong, GaoKepan

- Classification algorithm using SVM with latent variables
- Performs 10-15% better than usual SVM
- Performs 45-75% accuracy better than usual SVM

Java Web bookstore SSH+mysql+bootstrap   May.2016 - Jun.2016

- Using SSH framework to implement an online bookstore

Simple Database implementation in C++   Jul.2015 - Sep.2015

- Using C Plus Plus to implement this simple db. You can view this project on my github

♡ Awards

• The national college students' mathematical modeling competition	Sep.2016
• American college students' mathematical modeling contest	May.2015
• Volunteer of the 2014/2015 Shanghai international marathon	Oct.2015-Jun.2016
• Jiangsu province Olympic competition first prize in physics	Sep.2014

Skills

- Familiar with C、C Plus Plus、Java、Scala、JavaWeb、Python、PHP(Html,Css)、Mysql
- Development: Android、Web、Functional Programing

ℹ Others

- Github: http://github.com/jiayangchen
- Language: CET4(624)，CET6(588), preparing for TOEFL and GRE
- Drawing：Level of the traditional Chinese painting in jiangsu province Eight
